Education

Lovely Professional University, Phagwara, Punjab
Bachelor of Science in Computer Science

August 2022 – July 2026
CGPA: 7.71

Relevant Coursework

- Data Structures
- Computer Networks
- OOPs
- Shell Scripting
- Operating System
- Database Management
- Cloud Computing
- Computer Architecture

Experience

Campus Ambassador in IIT Bombay, India

August 2023 – October

- Conducted remote troubleshooting sessions to assist **12** team members in resolving complex technical challenges; Remote achieved a success rate of **90%** in resolving issues on the first attempt, enhancing team efficiency.
- Led event management across multiple **locations**, improving **communication**, engagement, and operational **efficiency**.
- Successfully coordinated and executed diverse tasks requiring **teamwork** and **collaboration** during national-level events.

Projects

EliteCare (2024) | SIH Finalist Project | Node JS, React, Tailwind

October 2024

- Conceptualized and developed a healthcare platform connecting **100+** NGOs, **5000+** patient communities, and a fine-tuned AI providing **98%** accurate healthcare insights.
- Concept selected among the top **2%** nationwide for **Smart India Hackathon 2024**.
- Implemented **3 Modes** solving **3 problems** at a time with **85% efficiency**, **NGO Mode** | **Community Mode** | **AI Mode**.
- Scalable, adding value to society with **92%** improved report analysis and **75.7%** faster request matching

Human (2023) | Self-Help Development Platform | Node.js, React.js, AI, MongoDB

July 2024

- Developed Human, a unique, holistic **self-help platform** integrating AI-powered recommendations for personal growth across finance, **health**, and mental well-being, impacting **10,000+ users**.
- **AI-driven** insights boosted decision-making accuracy by **93%**, increasing user engagement by **78%**.
- Enabled real-time progress tracking and personalized **growth** plans, reducing goal achievement time by **40%**.

Gmail Clone (2024) | React.js, React-Router, Redux, Firebase

July 2024

- Improved user **experience** by optimizing performance by **25%**, resulting in **50%** faster loading times and smoother interactions.
- Implemented essential features such as multi-account support, advanced search functionality, and message categorization, increasing usability by **40%**.
- Integrated Firebase for real-time data syncing and secure user authentication, enhancing app efficiency and responsiveness.
- Added push notifications and offline support, improving user retention by **35%**.

Ecommerce/Portfolio Websites | Node.js, Express, MongoDB ,ReactJs | AWS

July 2024

Technical Skills

Languages & Frameworks: Vue.js, Next.js, JavaScript, Node.js, Express, PHP, MySQL, React.js, Bootstrap

Data & DevOps: MySQL, MongoDB, C++, Python

Platforms & Tools: Linux, AWS CLI, Git, Octokit (GitHub API), VMware, VSCode, Postman, WordPress

Additional Skills

Languages : English, Hindi, Punjabi, French.

Editing Tools: Capcut, Figma, Adobe

Actively mentoring **peers** and **junior** developers, A **speaker** and fostering growth and collaboration in **tech communities**.

Achievements & Certifications

- Introduction to MongoDB for Students – MongoDB
- Problem Solving Skills - HackerRank
- Python – HackerRank
- **250+** Questions solved on **Leetcode**
